Estimate Nr.: 2023101559

Steven Bultot 1000

12"

These prices are estimated and are subject to change. The basis for this offer / order are our terms and conditions (please refer to our website: www.handlewithcare.de). In reflection of the current market environment, we can only offer price estimates subject to change. In particular, we reserve the right to withdraw the estimate at any point in the event of price adjustments on the part of the supplier/manufacturer. Due to the aforementioned end dates for offers are no longer guaranteed. Upon receipt of master CDR and artwork that is in accordance with our specifications. Excess or insufficient production cannot be avoided up to 10% (but no more than 1000 units) or up to 15% for special packing and small deliveries and must be accepted and the effectively delivered quantity will be charged. We reserve the right for the subsequent billing of GEMA licences.

The weight specification in grammage for vinyl pressings is a rough guide value that cannot be adhered to exactly in practice. Fluctuations of 10% up or down are completely normal and technologically justified. In individual cases, the deviation can be even higher. There is no industry standard for this. Therefore, vinyl records with a lower or higher weight have to be accepted.

In case you wish to produce a finished vinyl product without test pressings and subsequently upon receipt of the product then detect errors, defects or unsatisfied with the finished vinyl product, then please be aware that any follow up costs for a recut / electroplating / test pressings and final pressing cannot be undertaken by HWC / pressing plant / cutting studio. These follow up costs are only upon the client. Surplus printed matter (>300) is automatically stored free of charge for 12 months after production. After this period, the printed matter will be destroyed without further notice. Optionally should the surplus printed matter be sent together with the finished production, or should the printed matter be stored at the factory for a charge, then we require written information from you.

Due to the current tense situation on the world market for raw materials, there are delivery bottlenecks. Please note that price increases and long delivery times are still to be expected. For this reason, our offers and price lists are only valid for four weeks. If there should be a price increase between order and delivery, which we cannot cushion, we will have to pass this on. Of course, this will not happen without prior notice.

Pos.	Description	Amount	Price	Total
